Subject: Fw: Request for Approval of New Scheduled Maintenance
Date: 02/27/2012 03:00 PM
Attachments: dq005.pdf

Steve,

Think we discussed this previously and you indicated EPA would approve GM's attached request. An e-mail response is ok with me. One other related thing. Wanted to set up diesel meeting with you and possibly Jay Smith. Would include update on the 2013 MY certification for Duramax and status on the 2014 MY passenger car Cruze Diesel program. We have begun the DDV program and are requested an **CBI / Ex. 4** that you should see soon. Regarding emission standards, we are targeting **CBI / Ex. 4** standards. We would also have detailed overview of AECD's for this program. Need a 2 hour meeting later in March. Was thinking of something the week of March 19th. Let me know if that works. Thanks.

Randy

Subject: Request for Approval of New Scheduled Maintenance

Steve and Jay,

This is to follow-up with you on the attached request. I wanted to make sure you have seen it. I did not send Jay his own copy in the original distribution of this letter. I also want to inquire whether we would be getting an official response to this request. I think you may have had some discussions on this subject with Rob Sutschek during a Cert Preview Meeting.

Thanks,
